To whom it may concern,

Back in March 2012 we purchased shares in 2UP Gaming. We were advised that the money would be used to grow the company and provide working capital for it's operation. We opened an account with Austock Securities Account no A1048284. Nicholas Pereza-Matthews was the person we were dealing with. The money was paid into an account BSB 063-226 Acc 10056433 that was controlled by Justin Betteridge.

We received a BUY confirmation from Octa Phillip. The BUY showed we bought 7143 shares at 0.28 per share for a total of \$2104.54 and was dated 14/03/2012.

We now realize that the money that was to buy the 2UP shares has gone to people who were presenting themselves as representatives of 2UP. We believe that Phillip Capital should have had better accounting and checking of its staff, to stop fraudulent activities.

Regards,

WK & PL Comer
